What is Coach me?

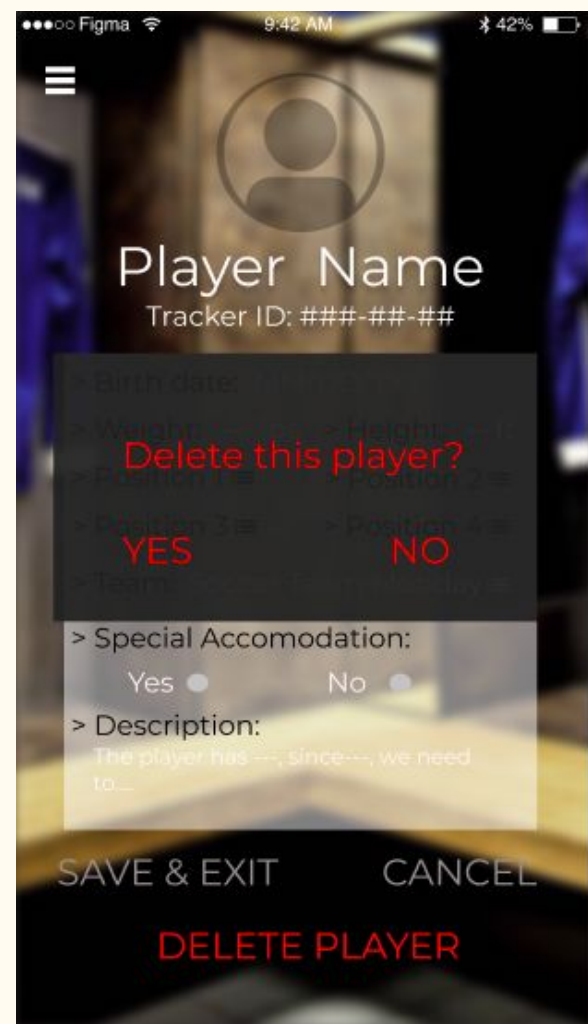

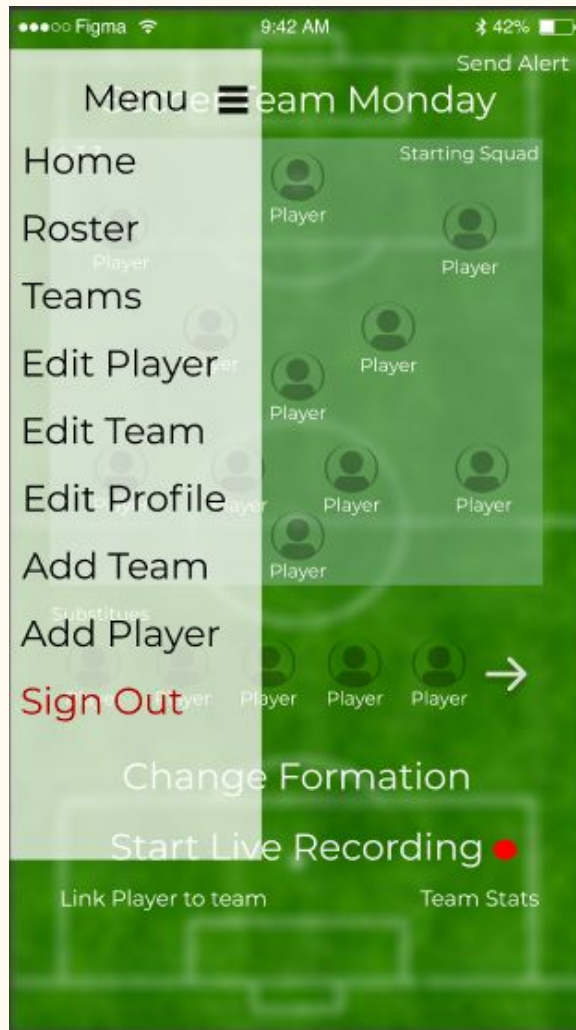

- Main Objective
 - Remove a barrier from amateur athletics.
 - Make sports accessible to everyone.
- A haptic wearable
- A phone interface (to interact with the wearable)
 - Coaching oriented app. You can manage teams, roster, formations and tactics for games.
 - Has a LIVE feedback on the tracking device of each player to watch their position inside the field.
 - A 'buzzing' implementation to alert players inside the field for an adjustment of position.
 - Provides statistics about the team's performance to track improvement of the in-game functionality.

Prototype

Achievements

Achievements from this project:

- **How to brainstorm**
 - Continuously sketch your ideas. /problems+solution/
- **Personas**
- **Storyboarding**
- **How to paper prototype**
 - Get a good sense of what we're doing
- **Heuristic evaluation**
 - Honest evaluation of current design
